1. Introduction to Seller Financing

What is Seller Financing?

Seller financing (also called owner financing) is when the property seller acts as the lender instead of a traditional bank. Rather than the buyer obtaining a mortgage from a bank, the seller provides the financing directly to the buyer.

Traditional Financing vs. Seller Financing

Aspect	Traditional Mortgage	Seller Financing
Lender	Bank/Mortgage Company	Property Seller
Down Payment	10-25% typical	0-20% (negotiable)
Interest Rate	6-8% typical	4-8% (negotiable)
Approval Process	30-45 days, strict	Days to weeks, flexible
Qualification	Credit score, income verification	Negotiable, flexible
Closing Costs	2-5% of purchase price	Minimal, negotiable
Prepayment Penalty	Often yes	Rarely
Assumability	No (usually)	Yes (if agreed)

Market Context

Seller financing represents approximately 5-10% of all real estate transactions. It's more common in:

- Rural or remote areas
- Properties with title issues
- Distressed or non-conforming properties
- Motivated sellers
- Private sales
- Commercial properties

---

2. Why Sellers Offer Financing

Seller Motivations

Financial Reasons

- **Steady Income Stream**: Monthly payments provide ongoing income
- **Tax Benefits**: Can spread capital gains over multiple years (installment sale)
- **Higher Sale Price**: Sellers often accept higher prices for financing
- **Investment Returns**: Interest payments exceed typical investment returns
- **Inflation Protection**: Fixed payments become worth less over time

Practical Reasons

- **Faster Sale**: Seller financing attracts more buyers
- **Avoid Bank Delays**: No waiting for bank approval
- **Easier Closing**: Fewer contingencies and requirements
- **Avoid Real Estate Commissions**: Direct sale to buyer
- **Property Sits**: Seller wants to move property quickly

Emotional Reasons

- **Buyer Relationship**: Seller wants to help buyer succeed
- **Legacy**: Seller wants property to go to right person
- **Flexibility**: Seller has time and wants to help
- **Previous Relationship**: Seller knows buyer personally

Identifying Motivated Sellers

Red Flags Indicating Motivation

- Property listed for 6+ months without sale
- Multiple price reductions
- Seller has already moved

- Seller mentions financial pressure
- Property has been on market multiple times
- Seller is retiring or relocating
- Property needs significant repairs
- Seller is facing foreclosure

How to Approach Motivated Sellers

- Ask directly: “Would you consider seller financing?”
- Emphasize benefits: “This could work better for both of us”
- Be respectful: “I understand you want to move this property”
- Offer win-win: “I can close quickly and give you steady income”
- Get it in writing: Document all agreements

---

3. Buyer Benefits & Advantages

Why You Should Use Seller Financing

Lower Down Payment

- Traditional: 10-25% down ($25,000 - 75,000 on$250,000 property)
- Seller Financing: 0-10% down ($0 - 25,000 on$250,000 property)
- Benefit: Preserve cash for other deals or repairs

Faster Approval

- Traditional: 30-45 days
- Seller Financing: 3-7 days
- Benefit: Close quickly, beat other offers

Easier Qualification

- Traditional: Credit score 650+, income verification, debt-to-income ratio

- Seller Financing: Negotiable, flexible criteria
- Benefit: Get approved when traditional financing isn't available

Lower Costs

- Traditional: 2-5% closing costs ($5,000 - 12,500 on$250,000 property)
- Seller Financing: Minimal costs ($500-2,000)
- Benefit: Save thousands in closing costs

Flexible Terms

- Traditional: Fixed terms, no negotiation
- Seller Financing: Everything negotiable
- Benefit: Structure deal to match your cash flow

No Prepayment Penalty

- Traditional: Often 3-5% penalty for early payoff
- Seller Financing: Rarely includes prepayment penalty
- Benefit: Pay off early without penalty

Assumability

- Traditional: Buyer must refinance if you sell
- Seller Financing: Can often be assumed by next buyer
- Benefit: Easier to sell property later

Financial Impact Example

```
TRADITIONAL FINANCING vs. SELLER FINANCING
Property Price: $250,000

TRADITIONAL FINANCING:
Down Payment (20%): $50,000
Closing Costs (3%): $7,500
Interest Rate: 7%
Loan Term: 30 years
Monthly Payment: $1,663

Total Cash Needed: $57,500
Total Interest Paid: $348,872

SELLER FINANCING:
Down Payment (5%): $12,500
Closing Costs: $1,000
Interest Rate: 5%
Loan Term: 15 years
Monthly Payment: $1,977

Total Cash Needed: $13,500
Total Interest Paid: $106,180

SAVINGS:
Cash Needed: $44,000 less
Total Interest: $242,692 less
```

---

4. Deal Structure Fundamentals

Basic Deal Structure Components

Purchase Price

- Negotiated between buyer and seller
- Often higher than traditional financing (seller compensation for financing)
- Typical premium: 2-5% above market

- Example: Market value $250,000 \rightarrow Seller financing$260,000

Down Payment

- Amount buyer pays upfront
- Range: 0-20% (varies by deal)
- Typical: 5-10%
- Negotiable based on buyer's financial situation

Loan Amount

- Purchase price minus down payment
- Example: $260,000-$13,000 = $247,000 loan

Interest Rate

- Percentage charged on loan balance
- Range: 3-10% (varies by market, risk, terms)
- Typical: 5-7%
- Factors affecting rate:
    - Market interest rates
    - Buyer creditworthiness
    - Loan term length
    - Down payment size
    - Property condition

Loan Term

- Length of time to repay loan
- Range: 5-30 years
- Typical: 10-15 years
- Shorter term = higher monthly payment but less total interest

Monthly Payment

```
Monthly Payment = [Loan Amount × (Interest Rate/12) × (1 + Interest
Rate/12)^(Months)] /
                  [(1 + Interest Rate/12)^(Months) - 1]

Example:
Loan Amount: $247,000
Interest Rate: 6% annual (0.5% monthly)
Term: 15 years (180 months)

Monthly Payment = $1,847
```

Balloon Payment

- Large lump sum due at end of loan
- Reduces monthly payments
- Buyer must refinance or sell before balloon date
- Common structure: 10-year amortization with 15-year balloon

Due-on-Sale Clause

- Loan becomes due if property is sold
- Prevents assumption by next buyer
- Can be waived to allow assumption
- Negotiable term

Sample Deal Structures

Structure 1: Simple Interest-Only

- Down Payment: 10%
- Loan Term: 10 years
- Interest Rate: 5%
- Structure: Interest-only payments, balloon at end
- Monthly Payment: $1,031 (interest only)

- Balloon: $247,000 (full principal)
- Best For: Buyer wants low monthly payments

Structure 2: Amortized with Balloon

- Down Payment: 5%
- Loan Term: 15 years (amortized)
- Interest Rate: 6%
- Balloon: Due in 10 years
- Monthly Payment: $1,847
- Balloon: $130,000 (remaining balance)
- Best For: Buyer plans to refinance or sell

Structure 3: Fully Amortized

- Down Payment: 15%
- Loan Term: 20 years
- Interest Rate: 5.5%
- No Balloon
- Monthly Payment: $1,289
- Best For: Buyer wants predictable, fixed payment

Structure 4: Lease-Option

- Down Payment: 0-3%
- Monthly Payment: Market rent + $200-500
- Option Price: Set at beginning
- Option Period: 2-5 years
- Best For: Buyer building credit, testing market

---

5. Negotiating Seller Financing Terms

Pre-Negotiation Preparation

Research the Seller

- Why is seller selling?
- How long has property been listed?
- Has seller received other offers?
- What's seller's timeline?
- Is seller motivated or patient?

Know the Numbers

- Market value of property
- Comparable sales
- Current interest rates
- Your financial capacity
- Maximum monthly payment you can afford

Prepare Your Offer

- Written offer (not verbal)
- Include all terms clearly
- Show earnest money deposit
- Get pre-approval letter (if possible)
- Include contingencies

Negotiation Strategy

Opening Position

- Start with your best offer, not your worst
- Sellers respect serious buyers

- Include flexibility on terms
- Show you're motivated but not desperate

Key Terms to Negotiate

Down Payment

- Start: Ask for 0-5%
- Compromise: 5-10%
- Seller wants: 10-20%
- Strategy: Offer higher price for lower down payment

Interest Rate

- Start: Ask for 4-5%
- Compromise: 5-6%
- Seller wants: 6-8%
- Strategy: Offer higher rate for longer term

Loan Term

- Start: Ask for 20-30 years
- Compromise: 15-20 years
- Seller wants: 10 years
- Strategy: Shorter term for lower interest rate

Balloon Payment

- Start: Ask for 20-year balloon
- Compromise: 10-15 year balloon
- Seller wants: 5-7 year balloon
- Strategy: Longer balloon for lower monthly payment

Interest-Only Period

- Start: Ask for 2-3 years interest-only
- Compromise: 1-2 years interest-only

- Seller wants: No interest-only period
- Strategy: Interest-only period for higher interest rate

Prepayment Penalty

- Start: Ask for no prepayment penalty
- Compromise: No penalty after 3-5 years
- Seller wants: 5% penalty for 10 years
- Strategy: Negotiate penalty terms

Negotiation Tactics

Win-Win Framing

- “This structure benefits both of us”
- “You get steady income, I get affordable financing”
- “We both win if this deal works”

Anchoring

- Make first offer (anchors negotiation)
- Offer slightly better than you expect to get
- Gives room to negotiate

Bundling

- Bundle multiple terms together
- “I’ll accept 6% interest if you extend term to 20 years”
- “I’ll pay 15% down if you go interest-only for 2 years”

Time Pressure

- Create urgency: “I can close in 10 days”
- Show you’re serious: “I have earnest money ready”
- Emphasize benefits: “You avoid real estate commission”

Emotional Connection

- Build rapport with seller
- Show genuine interest in property
- Explain your vision for property
- Make seller want to help you succeed

Common Negotiation Scenarios

Scenario 1: Seller Wants All Cash

- Counter: "I can close in 7 days with 10% down and seller financing"
- Benefit: "You avoid real estate commission (6%), get steady income, and close quickly"
- Result: Seller often prefers this to waiting for cash buyer

Scenario 2: Seller Won't Budge on Terms

- Counter: "Let's split the difference on interest rate"
- Offer: "I'll accept 6.5% if you extend term to 20 years"
- Result: Both parties move, deal gets done

Scenario 3: Seller Wants Higher Price

- Counter: "I can accept higher price if you offer seller financing"
- Offer: "$265,000 with seller financing vs.$250,000 cash"
- Result: Seller gets higher price, you get financing

---

6. Promissory Notes & Documentation

Promissory Note Essentials

A promissory note is the legal document that outlines the loan terms. It must include:

Required Elements

- **Parties**: Borrower (you) and Lender (seller)
- **Loan Amount**: Principal amount being borrowed
- **Interest Rate**: Annual percentage rate
- **Payment Terms**: Monthly payment amount and due date
- **Loan Term**: Total length of loan (e.g., 15 years)
- **Maturity Date**: When loan is fully due
- **Prepayment Terms**: Whether early payoff is allowed
- **Default Provisions**: What happens if payment is missed
- **Acceleration Clause**: Entire loan due if default occurs
- **Signatures**: Both parties must sign and date

Sample Promissory Note Structure

```
PROMISSORY NOTE

THIS PROMISSORY NOTE is made and entered into as of [DATE],
by and between [SELLER NAME], a [STATE] resident ("Lender"),
and [BUYER NAME], a [STATE] resident ("Borrower").

WHEREAS, Lender agrees to loan to Borrower the sum of
$[LOAN AMOUNT] for the purchase of property located at
[PROPERTY ADDRESS].

NOW, THEREFORE, in consideration of the mutual covenants
and agreements contained herein, the parties agree as follows:

1. LOAN AMOUNT
Lender agrees to loan to Borrower the principal sum of
$[LOAN AMOUNT], payable according to the terms herein.

2. INTEREST RATE
The loan shall bear interest at the rate of [INTEREST RATE]%
per annum, calculated on the unpaid principal balance.

3. PAYMENT TERMS
Borrower agrees to make monthly payments of $[MONTHLY PAYMENT]
beginning on [DATE], and continuing on the [DAY] of each month
thereafter until the loan is paid in full.

4. LOAN TERM
The loan shall be fully amortized over [LOAN TERM] years
(or [NUMBER] months), with a final balloon payment of
$[BALLOON AMOUNT] due on [BALLOON DATE].

5. PREPAYMENT
Borrower may prepay this loan in whole or in part at any time
without penalty.

6. DEFAULT
If Borrower fails to make any payment when due, and such failure
continues for [NUMBER] days after written notice, Borrower shall
be in default.

7. ACCELERATION
Upon default, Lender may declare the entire unpaid balance
immediately due and payable.
```

```
8. SECURITY
This note is secured by a [DEED OF TRUST/MORTGAGE] on the
property located at [PROPERTY ADDRESS].

IN WITNESS WHEREOF, the parties have executed this Promissory
Note as of the date first written above.

LENDER: _____ DATE: _____
[SELLER NAME]

BORROWER: _____ DATE: _____
[BUYER NAME]
```

Security Documents

Deed of Trust or Mortgage

- Secures the promissory note
- Gives lender (seller) claim on property
- Allows foreclosure if borrower defaults
- Must be recorded in county records

UCC Financing Statement

- For commercial property or equipment
- Gives lender priority claim
- Filed with Secretary of State
- Important for commercial deals

Title Insurance

- Protects lender's interest
- Ensures clear title
- Recommended even for seller financing
- Cost: Usually paid by buyer

Documentation Best Practices

Get Everything in Writing

- Never rely on verbal agreements
- Written agreement protects both parties
- Easier to enforce if dispute arises
- Prevents misunderstandings

Use Professional Documents

- Hire real estate attorney ($500-1,500)
- Use state-specific forms
- Ensure legal compliance
- Protects both parties

Record All Documents

- Record deed of trust/mortgage
- Record promissory note (in some states)
- Ensures public notice
- Protects lender's priority

Keep Detailed Records

- Keep copies of all documents
- Record all payments made
- Document any modifications
- Maintain communication records

---

7. Types of Seller Financing Deals

Type 1: Straight Seller Financing

- Seller finances entire purchase price (minus down payment)
- No bank involved
- Seller is primary lender
- Most common type

Pros: Simple, flexible, no bank involvement **Cons**: Seller takes all risk, requires trust

Type 2: Wraparound Mortgage

- Seller finances purchase but keeps existing mortgage
- Buyer makes payments to seller
- Seller makes payments on original mortgage
- Seller keeps difference

Example:

- Original mortgage: $150,000 at 4%
- Purchase price: $250,000
- Wraparound amount: $250,000 at 6%
- Seller receives $250,000 payments, pays$150,000 mortgage

Pros: Seller keeps low-rate mortgage, earns spread **Cons**: May violate due-on-sale clause, complex accounting

Type 3: Lease-Option

- Tenant rents property with option to purchase
- Portion of rent applied to purchase price
- Option price set at beginning
- Gives buyer time to improve credit/save down payment

Example:

- Property value: $250,000
- Monthly rent: $2,000
- Rent credit: $500/month toward purchase
- Option price: $260,000
- Option period: 3 years

Pros: Buyer tests property, builds equity, improves credit **Cons**: Buyer loses rent credits if doesn't exercise option

Type 4: Land Contract

- Seller retains title until final payment
- Buyer has equitable interest
- Buyer makes payments, seller holds title
- Buyer takes possession

Pros: Seller retains security, buyer builds equity **Cons**: Buyer doesn't get title until paid off, complex

Type 5: Assumable Mortgage

- Buyer assumes seller's existing mortgage
- Seller finances difference
- Buyer takes over existing loan payments
- Requires lender approval (usually)

Example:

- Property value: $250,000
- Existing mortgage: $150,000 at 4%
- Buyer assumes: $150,000 mortgage
- Seller finances: $100,000 at 6%
- Buyer's total: $250,000

Pros: Buyer gets low-rate mortgage, seller gets paid **Cons**: Requires lender approval, existing mortgage terms fixed

Type 6: Subject-To Purchase

- Buyer takes property “subject to” existing mortgage
- Buyer doesn’t assume mortgage
- Existing mortgage remains in seller’s name
- Risky for both parties

Pros: Quick close, no loan assumption required **Cons**: Due-on-sale clause risk, seller still liable

---

8. Due Diligence for Seller Financing

Buyer’s Due Diligence

Property Inspection

- Get professional inspection
- Identify needed repairs
- Estimate repair costs
- Ensure property is worth purchase price

Title Search

- Verify clear title
- Check for liens or encumbrances
- Verify seller owns property
- Ensure no other claims

Property Appraisal

- Get independent appraisal

- Ensure purchase price is fair
- Protects both parties
- Useful for refinancing later

Market Analysis

- Research comparable sales
- Verify property value
- Ensure deal makes sense
- Assess appreciation potential

Financial Analysis

- Calculate cash flow
- Ensure payments are affordable
- Plan for maintenance/repairs
- Assess investment returns

Seller’s Due Diligence

Buyer Verification

- Verify buyer’s identity
- Check buyer’s credit (if possible)
- Verify buyer’s income
- Assess buyer’s financial stability

Buyer References

- Contact previous landlords
- Verify employment
- Assess payment history
- Determine reliability

Title Verification

- Ensure you own property free and clear
- Check for liens or encumbrances
- Verify no other claims
- Get title insurance

Property Condition

- Document current condition
- Get inspection report
- Photograph property
- Establish baseline for future disputes

Legal Review

- Have attorney review documents
- Ensure proper security
- Verify compliance with laws
- Protect seller's interests

---

9. Common Pitfalls & How to Avoid Them

Pitfall 1: Inadequate Documentation

Problem: Verbal agreements lead to disputes **Solution**: Get everything in writing, use professional documents, have attorney review

Pitfall 2: No Security

Problem: Seller has no recourse if buyer defaults **Solution**: Record deed of trust/mortgage, maintain title insurance, document all agreements

Pitfall 3: Buyer Can’t Afford Payments

Problem: Buyer defaults, seller must foreclose **Solution**: Verify buyer’s income, ensure payments are affordable, get references

Pitfall 4: Property Issues Discovered Later

Problem: Buyer claims property defects, disputes payment **Solution**: Get professional inspection, document condition, disclose known issues

Pitfall 5: Wraparound Mortgage Violations

Problem: Due-on-sale clause triggered on original mortgage **Solution**: Verify wraparound is allowed, get lender approval, consider alternatives

Pitfall 6: Balloon Payment Not Addressed

Problem: Buyer can’t refinance or sell when balloon due **Solution**: Discuss refinancing plan upfront, build in time for refinancing, consider alternatives

Pitfall 7: Tax Implications Ignored

Problem: Seller faces unexpected tax bill **Solution**: Consult with CPA, understand installment sale rules, plan for taxes

Pitfall 8: Default Not Addressed

Problem: Unclear what happens if payment is missed **Solution**: Define default clearly, specify notice requirements, outline remedies

Pitfall 9: No Maintenance Responsibility Defined

Problem: Dispute over who pays for repairs **Solution**: Clearly define maintenance responsibilities in agreement, document condition

Pitfall 10: Assumption Not Addressed

Problem: Buyer wants to sell, new buyer can't assume **Solution**: Clarify assumption terms, consider making loan assumable, document in agreement

---

10. Real-World Case Studies

Case Study 1: Motivated Seller, Quick Close

Situation:

- Seller needs to relocate quickly
- Property listed 8 months, no offers
- Seller motivated to move

Buyer's Offer:

- Purchase price: $200,000
- Down payment: 5% ($10,000)
- Seller financing: $190,000
- Interest rate: 5%
- Term: 15 years
- Monthly payment: $1,427

Outcome:

- Seller gets: Quick close, steady income, avoids real estate commission
- Buyer gets: Low down payment, fast approval, affordable financing
- Both parties win

Case Study 2: Property Needs Repairs

Situation:

- Property needs $30,000 in repairs

- Bank won't finance (property condition)
- Seller motivated to sell as-is

Buyer's Offer:

- Purchase price: $180,000 (below market due to repairs)
- Down payment: 10% ($18,000)
- Seller financing: $162,000
- Interest rate: 6%
- Term: 10 years
- Monthly payment: $1,727

Outcome:

- Buyer gets: Below-market price, financing despite repairs
- Seller gets: Sale despite property condition
- Buyer uses savings for repairs, increases equity

Case Study 3: Lease-Option to Purchase

Situation:

- Buyer has good income but poor credit
- Needs 2 years to improve credit
- Wants to test property before buying

Agreement:

- Monthly rent: $2,000
- Rent credit: $400/month toward purchase
- Option price: $250,000
- Option period: 3 years
- Down payment at purchase: $20,000

Outcome:

- After 2 years: Buyer has $9,600 rent credit + improved credit

- Buyer refinances with bank at better rate
- Seller gets tenant, eventual sale, steady income
- Buyer gets time to improve credit, test property

Case Study 4: Wraparound Mortgage

Situation:

- Seller has low-rate mortgage (3.5%)
- Buyer wants to assume but lender won't allow
- Wraparound allows both parties to benefit

Structure:

- Original mortgage: $120,000 at 3.5%
- Purchase price: $250,000
- Wraparound: $250,000 at 5.5%
- Seller finances: $130,000 at 5.5%
- Seller keeps 3.5% mortgage, earns 5.5% spread

Outcome:

- Seller gets: Higher rate than mortgage, keeps low-rate loan
- Buyer gets: Financing, locked-in rate
- Seller earns 2% spread on $130,000 =$2,600/year

---

11. Legal Considerations

State-Specific Laws

- Seller financing rules vary by state
- Some states require specific disclosures
- Some states limit interest rates
- Consult with local attorney

Usury Laws

- Some states cap interest rates
- Typical cap: 10-12%
- Exceptions for certain transactions
- Verify compliance in your state

Truth in Lending Act (TILA)

- Applies to certain seller financing
- Requires specific disclosures
- Specifies format of disclosures
- Violations carry penalties

Fair Housing Act

- Can’t discriminate in lending
- Can’t charge different rates based on protected class
- Can’t deny financing based on race, color, religion, etc.
- Document all decisions

Due-on-Sale Clause

- Allows lender to demand payment if property sold
- May apply to seller financing
- Can be waived in agreement
- Verify with existing lender

Recording Requirements

- Deed of trust/mortgage must be recorded
- Protects lender’s priority
- Required in most states

- Failure to record risks losing priority

Tax Implications

For Sellers

- Installment sale treatment
- Spread capital gains over multiple years
- Reduces annual tax liability
- Consult with CPA

For Buyers

- Interest payments are deductible
- Property taxes are deductible
- Depreciation available (if rental)
- Consult with CPA

Conclusion

Seller financing is a powerful tool for real estate investors. It allows you to:

- Buy more properties with less cash
- Close deals faster
- Get financing when traditional banks won't lend
- Build relationships with sellers
- Create win-win situations

Remember: The best deals are structured to benefit both parties. When seller and buyer both win, the deal is more likely to succeed.

Key Takeaways:

1. Identify motivated sellers
2. Structure deals that benefit both parties

3. Get everything in writing
4. Use professional documentation
5. Verify buyer’s ability to pay
6. Protect yourself with security documents
7. Understand tax implications
8. Consult with professionals (attorney, CPA)
9. Build relationships with sellers
10. Always consider win-win outcomes
